

**Info Pack- International youth exchange -
„Mingle and Exploring Human Rights in Europe!”
20. September – 27. September 2021 in Berlin**

Project description:

The project aims to engage young leaders, especially Roma and marginalized youth to promote and work through non-formal education of their peers about democracy, human rights, right to access free public information, the right to vote and freedom of choice, the right to ask questions in their municipalities and to raise their voice for their rights as citizen. The aim is for the young people attending the project to become aware of their rights, thus becoming active and assertive citizens that act independently and address their problems properly in front of the authorities contributing to the respect of the EU democratic values, transparency and the rule of law. The project is about creative and political youth involvement and campaigning. This project will not only increase the knowledge and sensitivity of the young Europeans on the topics of Human Rights, Democracy and Discrimination, with an accent on Antigypsyism, but the increased awareness of the young Roma and non-Roma can strengthen the consciousness of the participants about their role and responsibility within their communities, the society and in Europe at large.
